

South OC Cyber Club

● Now welcoming new members

South OC's student cybersecurity club

Middle and high schoolers learning Linux, networking, lockpicking, and more, together. No experience needed, and it's free.

\$./join --grades 6-12 ■

What we do

Hands-on labs

Linux and Windows, hardening, logs, patching, and incident response in practice environments.

Lockpicking & physical security

How locks work, why some fail, and how physical and digital security connect.

Networking

Build and map networks, make and test cables, and configure routers and firewalls.

Community, events & competitions

Teach cyber safety, hear guest speakers, go to events like DEF CON, and compete in CTFs.

WHEN

Every other
Sunday, 2–4 pm

WHERE

Rancho Santa
Margarita

WHO

Grades 6–12, any
school

COST

Free

Come to a meeting

1. Apply online 2. Parent sign-off 3. Come on Sunday
